

# WEAPONS OF MASS DESTRUCTION

by **CATERPILLAR**

“As individual citizens, Caterpillar employees help solve local problems and contribute to their communities' welfare and prosperity. As a global company, we use our strength and resources to improve the lives of our neighbors around the world.” – Caterpillar Corp. website

Caterpillar bulldozers are the Israeli army's weapon of choice in its campaign of destruction against Palestinian civilian life. Since the beginning of the second intifada (September 2000), the Israeli army has demolished over *600 Palestinian homes*, *2600 civilian buildings*, and uprooted over *300,000 olive trees*—a traditional source of sustenance for Palestinian farmers.

Caterpillar says: "Any unusual event involving a Caterpillar product is considered an "incident." Caterpillar wants to learn about every incident involving any Caterpillar product that results in personal injury, death, product damage, or property damage. Equally important are observations of unusual events, which may have (or could have) resulted in a "near miss", even though no injury or damage has occurred. Knowledge of these events will be utilized in a continuing effort to make our products better and safer. If you observe or otherwise have knowledge of such an incident, please contact a Caterpillar Dealer to report all timely and relevant facts." –Caterpillar corporate website

## REPORT THESE INCIDENTS! Write in Protest:

Caterpillar Corporation  
100 Northeast Adams Street  
Peoria, Illinois 61629  
(309) 675-5588 [fax]  
(309) 675-4388 [phone]
