

"History is Ours,

and the People Create It"

September 11, 1973 - September 11, 2003

Chile, Salvador Allende and US Imperialism

A discussion on the momentous events of 1973 in Chile - when the brutal fascist coup led by Gen. Augusto Pinochet and supported by the US struck down democracy in Chile on September 11, 1973 in an attack on the Popular Unity government of Salvador Allende and its drive for social and economic justice. On the thirtieth anniversary of the coup, we remember and recognize the valiant struggle of the Chilean people and work to ensure that crimes like that of the coup are stopped wherever they occur - from Latin America, to Iraq, to Africa, to Palestine.
