INTERNATIONAL DAY OF ACTION

Over 100 Palestinian refugees in Montreal, Canada, currently face deportation - back to Lebanon's refugee camps or Occupied Palestine, despite the severe risks and utter deprivation of civil rights that await them. These stateless refugees are being attacked in Montreal as Palestinian refugee rights have come under attack internationally, most recently as President George Bush attempted to sign away Palestinian refugees' right to return home. The refugees of Montreal have called for an INTERNATIONAL DAY of ACTION to support their struggle for dignity and justice. Join us!
