Help Support Palestinian Prisoners! Make A Difference!

Please join New Jersey Solidarity - Activists for the Liberation of Palestine as we kick off a new campaign in support of Palestinian political prisoners and their families!

"Nidal" is the Arabic word for struggle. With this campaign, we honor the Palestinian political prisoners and all those who struggle against 60 years of oppression and occupation.

This campaign is based on a direct, simple expression of support and solidarity - letters written to prisoners and their families, from students, workers, activists, artists, families, and others throughout the United States and around the world, expressing human support, honor, respect and commitment to the freedom and dignity of the Palestinian people and Palestinian political prisoners.
