

WELCOME TO THE UNIVERSITY OF PALESTINE! (under occupation)

UN RESOLUTIONS APPLY EVERYWHERE ELSE BUT HERE!

RESIDENCE LIFE

● = Checkpoint

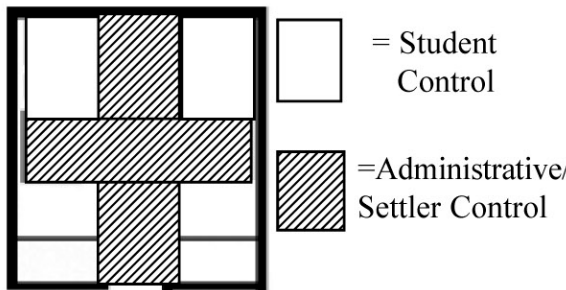

At the University of Palestine, you cannot get from one end of your residence hall to the other without passing through a series of invasive military checkpoints where you are searched and forced to wait for several hours. Remember--leave for class at least five to seven hours early--be prepared for the wait! Also, keep in mind that although you may live here in residence, your property may be confiscated and/or demolished at any time for use by the Settler Students. Remember, they are the Chosen People of this University and have the right to take your land!
***NOTE: Checkpoints do not apply to Settler Students!**

Do not walk off-campus without proper ID papers! If you do, you may face immediate incarceration. Please remember that you do not have access to the justice system of the Settler Students and will be tried by military tribunals! Security on campus is well-guarded, with all security police equipped with the latest in American-made machine guns, rifles, helicopters, planes and bombs--and ready to use them! Do NOT question their authority! Remember, should any of your classmates violate security policies, you will be held responsible. ***NOTE: Do not raise concerns about "human rights violations". No one may dictate morality to us!**

CAMPUS SECURITY

ADMINISTRATION

At the University of Palestine, your dorm room is divided into four sections, all of which are under the control of a hostile dean. Although you do not have control of your resources (don't forget to pay us for allowing you to use your own water!) or borders, remember that this is a VERY GENEROUS OFFER for which you should be extremely grateful! All of our administrators have gone through the finest military training, from ordering the breaking of protesters' bones to the slaughter of thousands of refugees! ***NOTE: We reserve the right to revoke our generosity at the slightest sign of resistance and unleash brutal military force, supported by billions of American tax dollars. Enjoy your occupied "independence"!**
